

Find Your *Perfect* Ring Size

A simple guide to measuring at home, even when the ring is a surprise.

Before you measure, check the print. Print at **100% / Actual Size** (not "Fit to Page"). Lay a ruler along this line: it should measure exactly **50 mm**. If it doesn't, change the print setting and print again.

Step 01

Choose a Ring

Borrow a ring that fits the right finger well. Planning a surprise? One of their rings works perfectly.

Step 02

Check the Print

Measure the 50 mm line above with a ruler before you start.

Step 03

Match a Circle

Lay the ring flat over the circles. Your size is the circle where the ring's **inside edge** lines up with the **inside edge of the black line**: no gap, no overlap.

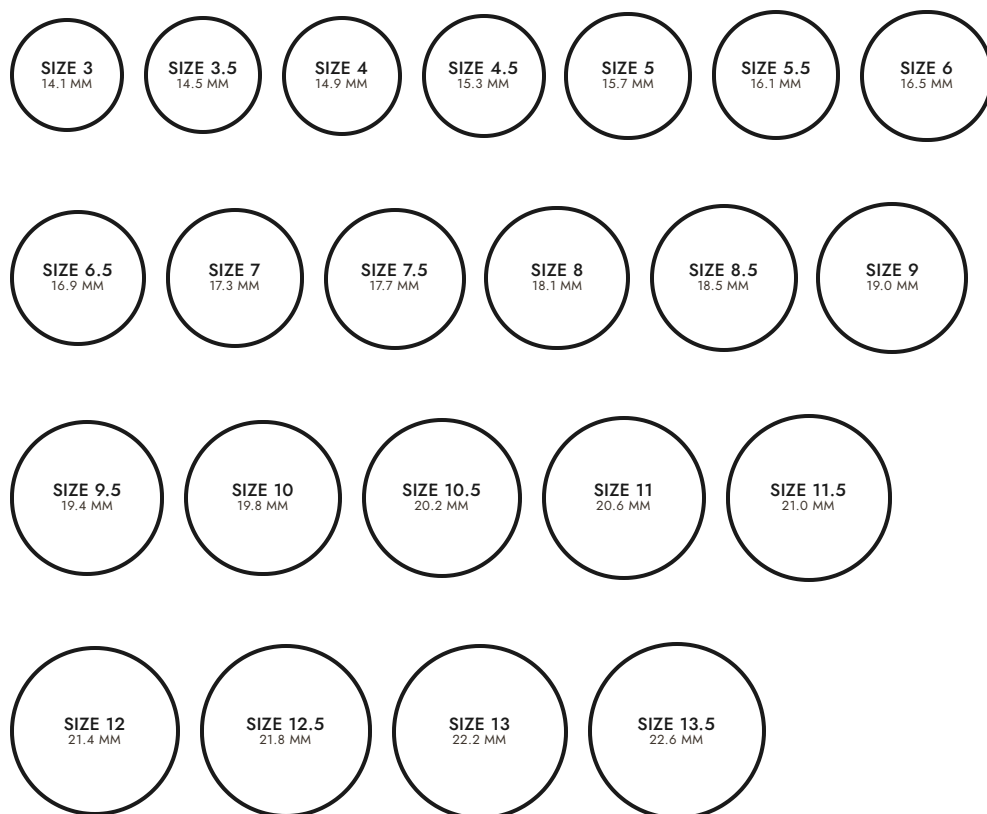

Step 04

Between Sizes?

Go with the larger size for comfort, especially for wide bands.

Prefer a Real Sizer?

We'll mail you a **free reusable ring sizer** that measures sizes 1 to 17. Order one at bellodiamonds.com/products/free-ring-sizer.

Still Not Sure?

Every Bello ring includes **one complimentary resize** within the first 12 months, with free shipping both ways in the US. Questions? Call **212.845.8222**.

NO RING TO BORROW?

Measure With a Paper Strip

Cut out the strip along the dashed line. Wrap it snugly around the base of the finger, numbers facing out, so the end of the strip overlaps the numbers. The number that lines up with the **start line** is your size. Measure at the end of the day, when fingers are their largest, and make sure it can still slide over the knuckle.

✂ Cut along the dashed line.
Numbers are US & Canada sizes.
